FISH AND FISH PRODUCTS

Design of industrial vessels and equipment

10. An industrial fishing vessel or equipment shall have the following minimum requirements:

- (a) a reception and adequate work for taking fish and fish products on board;
- (b) the area shall be easy to clean and protect the fish products from the sun or any source of contamination;
- (c) a place for storing and packaging materials separate from processing areas; and
- (c) a suitable number of toilets and changing rooms.

Areas for preparation and freezing of fish and fish products

11. An area used for the preparation and freezing of fish and fish products shall have the following:

- (a) a non-slippery floor, walls and ceilings that are easy to clean and disinfect;
- (b) adequate ventilation, lighting and proper vapour extraction; and
- (c) cleaning and disinfection tools that are not hand operated.

Requirements during and after landing of fish

12. The following requirements shall be complied with during and after landing of fish:

- (a) offloading and landing equipment shall be constructed of material that is easy to clean and disinfect, and shall be kept in good state of repair and cleanliness;
- (b) fish products shall be placed, without unnecessary delay, in a protected environment at appropriate temperatures to prevent contamination of the fish products;
- (c) signs prohibiting smoking, spitting, eating and drinking shall be displayed in prominent and conspicuous spots in the area used for landing fish; and
- (d) the area shall be closeable and be kept closed in the manner determined by the Department.

General conditions for fish factory

13. Any factory, equipment and premises used for keeping or storing fish shall have the following facilities:

- (a) working areas of sufficient size for work to be carried out under hygienic conditions;
- (b) the layout and design shall separate the clean and dirty parts of the factory in order to prevent contamination of the fish or fish product;

- (c) the cold rooms used for storing fish and fish products shall be kept at appropriate temperatures as prescribed by the Zambia Bureau of Standards;
- (d) appropriate facilities for protection against pests such as insects, rodents, birds and vermin shall be in place; and
- (e) minimum sanitary conditions shall be adhered to as prescribed by the Zambia Bureau of Standards.

14. (1) An employer shall take all necessary measures to ensure that the highest possible standard of cleanliness is required of staff.

General conditions of hygiene applicable to employees

(2) An employer shall take all necessary measures to prevent any contamination of fish and fish products and ensure provision of personal protective equipment to employees handling fish and fish products.

15. The handling of fish products on shore shall comply with the standards prescribed by the Zambia Bureau of Standards.

Handling fish products on shore
